Peri Privacy Screens can provide rewritable surfaces while absorbing sound and are fully tackable to display your meeting notes or other important meeting documents.

**A new generation surface material that both absorbs noise and is fully tackable.**

Moveable ezoBord Peri Privacy Screens absorb sound, are fully tackable and available in 2 heights and a range of widths. With the optional adder screens, you can create screens or dividers of any length to help define any open area.

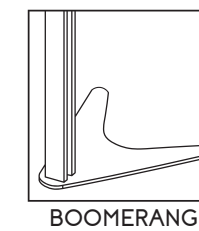

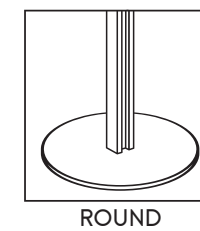

Made with recycled plastic water bottles.

**Specifications**

<b>SIZES</b>	Available in the following widths: 24' (610mm), 30' (762mm), 36' (914mm), 42' (1069mm), 48' (1219mm), 60' (1524mm), 72' (1829mm). Available in the following heights: 54' (1372mm), 60' (1524mm).
<b>COLORS</b>	15 standard colors. Custom prints also available.
<b>THICKNESS</b>	3/8" (9mm) thick.
<b>UPPER SURFACE</b>	Whiteboard option available on upper portions in magnetic or non magnetic.
<b>FIRE TESTING</b>	ASTM E84 A and CAN/ULC S102.
<b>MATERIAL</b>	100% polyester, +/- 50% of which comes from recycled water bottles without use of adhesives or other bonding agents.
<b>NOISE REDUCTION</b>	Averages NRC 0.75 (subject to mounting conditions) 1.0 NRC in mid-high frequencies.
<b>CLEANING</b>	Remove dust and dirt with a stiff plastic bristle brush. Distilled water can be used to remove stains. Always use a soft clean cloth and blot dry.
<b>INSTALLATION</b>	Peri screens can be set up in minutes in any number of configurations to define meeting spaces rapidly and cost effectively.
<b>PRODUCT VARIANCES</b>	ezoBord PET fibre panels employ a traditional felt production process. Multiple tones can be present in the fiber and some variations in color should be expected when specifying this sustainable material.
